The weather is as hot as the hinges of hell, but there is nothing to do about it except write Bilbo.

Allen, working to overcome the objection of General Marshall to the location of an army camp near small towns, has received warm and cordial help from Governor Johnson and from Major General Tom Grayson. Their letters to the Secretary of War will appear next week.

Here Mr. Peat is again, a place where Mr. Peat's cow has been 2 life.

Wall Doxy's supporters had a grand get-together at the Mayors of the Tuesday.

Dear Brandy Morris: our best knife has been gapped and needs sharpening.

The main thing "That's Going On Around Grenada" is sitting under an electric fan and praying for cool weather. This series, we hope, will begin again next week.

A certain man in Grenada seems to fight everything that the majority of people want. Just to show this is a free country. This man receives constant postage from many of those whose schemes and pet plans he slurs at continually. That's his sympathy with the Chinese and supplying ammunition to the Japs.

Wonder why Turner Bailey never received the wages the Water and Light Committee, sanctioned by the whole board, promised him?

It's just too damnably hot to set this kind of crap on the linotype, so I am laying off some of it until cooler weather, tho I have plenty to say when the time comes.

"Under the Magnolia Tree" is left out this week, as we always like to have the author. Mr. Allen read proof on it. He did not get back from his recent trip until after the editorial page was printed.

I sent Mike four dollars to use in his campaign if he is fool enough to get back into politics.

We are now equipped to print numbered and perforated jobs like these three-on check books and things of that kind.

Sam Mims wanders around like a lost soul while his wife is away.

Mrs. 2-spot Clark recently returned from a pleasant visit to her sister in Atlanta, Ga.

Print at Home.

Do not lose faith in Great Britain with America's increasing aid. Hitler is nearly twelve months behind in his itinerary, that of eating dinner in London on August 15, 1940.

Do your printing at home.

See where Brother R. A. Povall has relinquished the helm of the century-old Lexington Advertiser to Brother Mabry, formerly with the Dixie Advertising Agency. We hope Brother Povall enjoys a well earned rest and that Mabry will uphold the high standards set by his predecessor.

Roll-em Wall is still in the Tower Building according to latest reports.

Aint they sweet.

Our good friend, Ed James was in town Monday and informed us Granville James, about whose promotion in the army we had an article last week, was his youngest son. We received the information from a clipping sent by George Lickfold from a Dallas newspaper.

This is mighty stale news, but we know it will please his many Grenada friends to know that Harold LaDuke is now head of the Ransom mill at Woodville. We received this information while in Woodville recently.

Horace Tilghman must have laid by for he was seen walking down Beale Street Monday morning.

Watermelon Hemphill seems to be doing mighty well with 3-4 acre of cantaloupes. He raises mighty good ones too.

Prospects for fall business are extremely good at this time. Nobody knows however what the next few months will bring.

Mighty glad to see Paw Todd sitting up and taking notice again.

Col. Kahn has this race figured out again, as usual.

I am glad I am not in that hot jail. It is hot enough under a fan.

Wonderhow Brother Ratliff, of Elliott, is getting along?

### NEWS AND VIEWS OF THE YOUNGER SET

By The Three Listen-ers

The Fourth of July comes but once a year. In honor of this occasion Marguerite Stanley threw a party at her country home in honor of her two visitors, Dot Martin and Doris Newman. It originally planned to be a picnic in her front yard but the man weather changed her plans. Just as led ad seeds of guests poured into the living room and began having a fine time immediately. All of the Rhett's turned out for this occasion—even BOB who is supposed to be the quiet one in the family. Anne Odum played the piano and several others tried. (No offense). Several of the card sharks at the party sat down on the floor and attempted to play bridge. The food was the highlight of the party. The highlight of the food was the most divine devil food cake. Everyone had the best sort of fun. After the party four or five couples adjourned to the bridge and shot firewords.

We see Betty Esther trucking to the show every night—Could it be for the reason that Bryan is working there? We know something on Bryan but Bryan is a good friend of ours so we will not say anything.

Rowe Rhett vacationed in Columbus, had a swell time, and brought his sons in, Billy Johnson, home with him.

Marguerite had as her house guests for the last week, Doris Newman and Dot Martin from Starkville.

Sara Frances Spencer came up from "Louisiana Way" to visit her cousin, Anne Odum. Anne and her cousin were seen around town Monday night with Robert Shaw and Earl Gillon.

Ruth Lee Morrow returned to Alabama and Lil York, Jean Burt, Margaret Green and Margaret Spain at Camp Rockbrook.

Benton better known as "Crafty" heard Big Boy Patty saying that he was going to ask Jean for a date and he beat Poor Little Patty to the draw.

Mary Lou Cullen is visiting the Johnsons in Houston this week. She's getting Emmitt to get Monty trimmed-up, for the visitor she's bringing home.

Jean Maxwell, of Jackson, and formerly of Grenada, is visiting her aunt, Mrs. Thomason, on College Street.

"Shy" York of Miss State, spent ten days or so with his family.

Robert Howard and Oscar Preston, of Water Valley, out-of-town Saturday night and Bet Edwards and Jean Geeslin were with them in a Cadillac.

William Winter plans to have a big political rally Thursday night. There'll be a lot of chicken to eat. Strictly stag.

Puzzle, puzzle,—Is it Jackie or Betty for Penn??

Sputter, Fitt, Geeslin vs Keeton.

Cliff Bailey dated Nelly Joiner the other night.

Henry Hedderman from Jackson, breezed up to Grenada last week to spend a few days in the Horton home. (Helen Horton home).

Bishop Anderson from Memphis took the Fourth and came home. We were all glad to see him.

Mickey threw water on Martha at the swimming pool and Martha slapped him and then apologized. Funny life—aint it?

We have been requested to announce that Thursday, July 24th has been designated as the date when the historic Mt. Nebo cemetery will be cleaned off.

Those interested are urged to come, bring lunch and help beautify this halcyon spot where so many loved ones are sleeping.

### Briscoe Says There Is No "Slack In Traces"

Hello friends, I haven't gone away and neither have I given out of "Amputation" as has been jokingly said. True and correct information is being gathered and assembled to be revealed and discussed at the proper time. A "full head" of steam is being maintained and I am very proud to say that the situation in general is looking more favorably day by day, don't court the idea that slack has been allowed to get into our traces, and should it appear to you that interest is a bit lagging or we are slowing up I ask you to be more considerate for you are well aware of the fact that it is impossible to keep you posted of every move that is being made. I sincerely assure you that I have not given up and shall never give up until I am battered down and after being battered down I will still court the idea that a city owned power plant will be profitable to us, our children and our children's children, when the Engineers report will have been completed and submitted to the city officials and Citizens Committee I am very, very confident that it will prove most adequate and appropriate for our Grenada and the citizens that make Grenada, and I say, my friends, be patient with us for in due time we will have accomplished our much desired aim.

However, I have thought since the beginning of this crusade, how nice it would be to unite the power plant with the water department which I believe would result in much lower light and water rates at a tremendous profit to the city, also a committee, similar to the Citizens Committee, could be embodied for the purpose of assisting the city officials in their supervision and maintaining these units separately or united. This committee would go far toward removing some of the responsibility that would rest on the aldermen and such committee I believe would be invited by them to share these duties. That is just a thought and you may accept it for what you think it worth.

C. W. (Red) BRISCOE.

July 6, 1941.

## Seen, Heard and Told By The Editor

And they sweet.

I guess our soldier boys will be glad to leave Camp Blanding which, according to reliable accounts, is located in the sand wastes of Florida. If reports about Camp Blanding are true, it can not be proved that politics are not used in the location of army camps.

Mary Meek, who is visiting her son, Griffith, in Glendale, California, will be happy to learn that Tom went to preaching Sunday morning. That's all I know about what he did on Sunday.

Our local saloonkeepers had a splendid business on and immediately after July 4th.

Our young friends, Mr. and Mrs. Wade Rice have moved to Grenada from Holcomb and make their home at 529 Main Street.

Several of the Grays were in town Saturday.

I celebrated my 42nd birthday Saturday, the 5th day of working day.

Cousin Belle McLean has moved back to Little Rock from Mississippi. The G.W. follows her wherever she goes.

We have Spanish moss and Moss Lake and mosses of many kinds and colors, but the moss that outgrows all the other mosses is Civil Moss, a new subscriber.

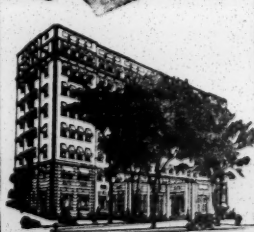

Ellert Lawrence, friend, old companion of my youth, returned to place with a call Saturday. Ellert was glad to say, has one of the best fruiting plants in the state at Grenada—much better even than that of the G.W. Bess, his wife, a companion to Grenada.

Brother Hemphill, who is called by Mr. Provine and Mrs. White, was the third person to bring in large cotton bolls.

Our friend A. W. Kosman, is in good standing until next March, glory be.

Eggs in adjoining counties to the association are still selling for 15 cents. More of our farmers should sell their eggs through the association.

Mr. Lum Butler, a new farmer in Beat 5 has found a new fertilizer for corn. He has planted a field of corn where he plowed under a crop of peas and soybeans last year and the corn looks like it might have been fertilized with 600 pounds of commercial fertilizer.

D. D. Smith and N. N. Wright thought they lost six head of steers with a new cattle disease last week, but it was determined to be due to poison washed in their pasture from the Railroad right-of-way.

Other farmers visited last week were Mildred Tilghman, Horace Tilghman, W. N. Hayward, E. C. Hayward, J. B. Keeton, J. P. Boyle, Glen Boyle, and Oakley Smith.

Many farmers have reported boll weevil damage in their cotton than ever before known. Many are buying calcium arsenate to poison the weevils.

Twenty pounds of poison per acre is sufficient to poison the necessary three applications. At the present price of cotton, it looks like good business to poison the cotton.

### NEW AMENDMENT TO AAA PROGRAM

A new amendment provides that a producer may "plow up" any sorry cotton to qualify for cotton stamps in case he has not already reduced his acreage to qualify. Application must be made to the County office to plow up the cotton before it is destroyed, and each producer will have to pay a small fee for measuring the destroyed cotton.

## Scales of Justice—and Wages

There is bound to be a good deal of discussion of the demands for increased pay that have been made upon the railroads. Here are some facts and comments:

The railroad labor unions have demanded wage increases averaging about 41 per cent. In the case of the Illinois Central, these wage increases would mean added costs of approximately \$23,500,000 a year.

Such demands are naturally of interest to everybody—to those who use the railroad and foot the bill, to those who work for it, to those who have put their money in it.

These wage increase demands are so tremendous they bear no relation to profits, either that have been earned or that can be expected. There never have been and are never likely to be such profits in the business.

The Illinois Central has fortunately been able to keep up all payments on its interest-bearing obligations. However, the stockholders have not received anything for the last ten years—since 1931.

If increased pay should make it necessary to increase freight and passenger rates, that would certainly lead to further increases in prices, which is something we all want to avoid.

It should be unnecessary to say that labor is worthy of its hire. However, the pay of those whose labor runs the railroads must be within reason.

### TUESDAY BRIDGE CLUB

Mrs. H. T. Rogers entertained three tables of bridge club members at her charming home Tuesday morning at ten o'clock. Exquisite roses were arranged in the spacious living room where the card tables were placed and an unusually lovely bouquet of vivid lily garden flowers adorned an occasional table at the screened porch, which is really a lovely summer living room.

As the guests arrived they were served punch and at the conclusion of the games, at noon a delicious luncheon was served. Two non-member guests, Mrs. Ben Brown and Miss Lida Coffman, enjoyed this lovely affair with the club members.

Mrs. Blanche Matthews, of the University, is spending this week in the home of her brother, Mr. Will Martin and Mrs. Martin. She is to leave Monday on the Kona, Mississippi River Train for a two weeks' tour.

### EPISCOPAL CHURCH PICNIC

On Wednesday afternoon, July 10th, Grenada Episcopalians will have their annual church picnic. They will leave Grenada at 2:30 and go to the American Legion Lake in Vicksburg county. This beautiful lake, formed by the waters of a great spring, is ideal for an outing. Those attending will have the pleasure of swimming, fishing, a small charge is made for fishing, outfitting washers, and real hill climbing. ### IRIS CLUB MEETS

Thursday afternoon at 4:30 July 3, members of the Iris Club and guests, assembled in the very lovely garden of Mrs. J. K. Aveni's home on Margin St. The garden is in reality a summer living room, carpeted with luxuriant, close clipped grass, surrounded with choice, fragile flowers and dressed up with furniture which is decorative as well as practical. The long slanting shadows of the trees on the west border line, gave protection from the sun's heat and added that ever changing pattern of sun light and shade, so appreciated by garden lovers.

As we strolled about the garden, many old fashioned favorites greeted us from the perennial border. We noted the loveliness of hardy carnations in snow white, and clusters of rich dark red ones which seemed to vie with the exotic beauty of deep pink touch me nots, exquisite color toned pinks, and sweet alyssum, colorful petunias and verbena are massed to give vivid splashes of color down the entire length of the garden. Shasta daisies, at the height of their blooming season, formed a shady and graceful background for the border plants. The lower garden, arranged so that it is a garden in itself, is studded with iris beds and roses. The south border of this garden is a rock garden built of field stone and planted with lovely small plants in bloom. As the guests arrived they were met at the entrance to the garden by the hostess and she escorted them to the tea table. The table decorations were very patriotic, a red draped table was centered by a large blue vase holding a beautiful bouquet of Shasta daisies.

Louise Aveni, daughter of the hostess, and Carolyn Whitaker, assisted with the serving of refreshments, which consisted of delicious sandwiches and individual cake squares, with choice of fresh lemonade or Coca-Cola.

The business session followed the serving of refreshments. Mrs. Aveni, President, presided. Mrs. T. B. Revell, Secretary, gave her report. Mrs. W. H. Hill presided over the program in the absence of Mrs. W. E. Jackson. Topic of discussion was the Vespa Iris, a Chinese Iris of rare beauty and quite hardy and suitable to this climate. Mrs. Jay Gore gave an interesting discussion of the Vespa variety and Mrs. Thelma Stokes on color and shades of iris. There are many known varieties of iris, most all of which would be suitable for planting here. Mrs. Prouditt, chairman of local planting, discussed the iris planting sponsored by the club, at the Barwin Hotel. This discussion was followed by Mrs. Aveni's informal talk on iris club projects for Grenada.

Mrs. Whyte Whitaker was named as one of the membership committee. Next meeting will be held the first Thursday in August, at 4:30 o'clock. The club will again assemble at Mrs. Aveni's garden.

## MT. NEBO NEWS

Dear Editor, and those who may read this, there is so much coming and going, that we are flustered, and so at request of our Lord Mayor and many others, we try to tell of our Fourth of July celebration, which on account of rain was a flop as far as attendance, but for zeal was a record breaker. Promptly at sun rise the flag was unfurled and the band played Dixie, which of course brought applause and yells, next played Star Spangled Banner, more and louder yells, and from then on business hummed. Our sponsor then stated object of the gathering and crowd recited the oath of allegiance, and declaration of Independence in unison, speaker leading. There was not a dry eye in the crowd (nor back either) as there was a two inch rain falling. And so, then the committee on resolutions, handed in a long winded document stating, "we have much to feel thankful for, in our freedom, our wise governor, who without any shenanigan, appointed a clean-cut young man to take lamented
